

# C O N T E N T S

<b>Foreword GeoCad`09</b> .....	9
<b>S. Dequal, H. I. Bendea, M. De Agostino, D. Marenchino, F. Nex, M. Piras</b> New frontiers of Geomatics: some applications at the Politecnico di Torino .....	11
<b>N. Hasanagas, A. D. Styliadis &amp; O. E. Sideridou</b> Virtual cultural heritage metadata .....	23
<b>Szepesné S. M.</b> Engineer Training on New Ways: Imagine, Create, Innovate! .....	33
<b>A. Lingua, D. Marenchino, F. Nex</b> A comparison between “old and new” feature extraction and matching techniques in Photogrammetry.....	43
<b>A. Lingua, D. Marenchino, F. Nex</b> Automatic Digital Surface Model (DSM) generation procedure from images acquired by Unmanned Aerial Systems (UASs).....	53
<b>H. I. Bendea, A. Cina, M. De Agostino, M. Piras</b> A low cost solution as an alternative to traditional mobile mapping system .....	65
<b>A. R. Moradi, F. Alemi</b> Wavelet transform and its application to detect the blunders in an observation vector .....	77
<b>N. Hasanagas, V. Kyriakou, A. Styliadis, N. Kara, S. Saoulidou, Th. Katsika</b> Familiarity & perception of small urban monuments.....	87
<b>Csordásné M. M., Szepes A.</b> Applying methods of constructivist pedagogy in the training of engineers Questions of methodology in developing course material.....	99
<b>N. Avramiuc, P. I. Dragomir, T. Rus</b> Algorithm for direct and inverse coordinate transformation between ETRS89 CRS and S-42 CRS.....	105
<b>C. Moldoveanu, M. Plopeanu</b> The general presentation of the coordinate reference systems .....	115
<b>C. Coșarcă, A. Jocea, A. Savu</b> Analysis of error sources in Terrestrial Laser Scanning.....	125
<b>N. Boș, M. Palamariu</b> Regarding bringing in general cadastral survey in Romania.....	135
<b>C. Grecea, A. C. Bălă, H. Márton</b> Geospatial information – modern tool for an efficient administration of cemeteries in Timișoara .....	141
<b>D. C. Docan, P. I. Dragomir</b> Testing metadata compatibility .....	149
<b>A. Ilieș, D. Vasilca</b> Sequential compensation of geodetic networks. Least square method with initial data obtained from a previous adjustment .....	157
<b>Gh. Nistor, Gh. Sălceanu</b> Analysis of vertical deformations and displacements of a building using high precision leveling in the absence of the fixed reference network.....	169
<b>M. Palamariu, V. Buda, A. R. Iancu</b> The use of digital elevation models in generating real - time 3D environments: a case study.....	177

<b>I. Vorovencii</b> The satellite images Ikonos 2 used in analysis of urban zones.....	187
<b>I. Vorovencii, M. Palamariu, L. Dimen, E. M. Koncsag</b> The use of vegetation indices to establish the land use.....	193
<b>S. Herban</b> Measuring and determinate the dynamic deformation of constructions using modern theologies and techniques.....	201
<b>C. Spătar, C. Spătar, C. B. Spătar</b> Conducting underground digging works by classic and modern working methods .....	209
<b>I. Stoian, A. Anghelescu, V. Nacu, D. Nicolae, V. Olaru</b> Geodetic models for earthquakes, landslides and floods monitoring .....	217
<b>V. Olaru, I. Stoian, C. Stan, C. Marunțeanu, D. Scradeanu, B. Ștefanescu</b> Decision support system for landslide risk management in a geographical area with high risk for natural disasters – terrarisc.....	233
<b>M. Sturza</b> Dimensionality of spatial data.....	241
<b>A. Mancia</b> The Land Market in Romania in 2008.....	245
<b>I. E. Keller, Ș. Bilașco, I. Haidu, B. Văduva</b> Using GIS to determine the flooded areas and risk assessment in the water supply system .....	249
<b>M. Mihăilă, E. Iordache</b> The digitized data management supported by modern technology on the Romanian forest conditions .....	259
<b>C. Bofu, M. Diac, S. Bofu</b> The integration of a topographical and cadastral database of a river basin into a GIS application and the 3D forming operation of the basin in case.....	265
<b>G. Droj, Ș. Suba, A. Buda</b> Modern techniques for evaluation of spatial data quality .....	275
<b>C. Chirilă, M. Diac</b> Conversion of the plane rectangular coordinates between the cartographical projections Stereo-70 and U.T.M., defined on the international reference ellipsoid W.G.S. - 84 .....	283
<b>V. David</b> New developments in photogrammetry .....	289
<b>M. Herbei, O. Herbei, R. Ular</b> Principles for accomplishing the digital model of the terrain .....	293
<b>A. Bălă</b> Improvement of the monitoring methods of the surfaces movements, situated in the mining zones.....	301
<b>G. Bădescu, O. Ștefan</b> Particularities of elaborating the cadastral documentation required for the first registration of romanian roads into the land register .....	305
<b>D. Badea, A. Jocca, A. Negrilă</b> 3D city modelling by combination of terrestrial laser scanning data and images .....	309
<b>G. Adam</b> Making a survey of the public utility real estate and a 3D visualization of buildings .....	319
<b>E. Iordache</b> The importance of SDI in the context of sustainable development of Romanian forestry.....	329

<b>B. Moroşanu</b> „Noi Topografii” – Online Topography .....	335
<b>M. D. Muntean</b> Conversia 2007 resulting from the brainstorming technique .....	345
<b>C. C. Tereşneu, M. M. Vasilescu</b> GIS possibilities and topographical measurements on torrential hydrographyc network used to elaborate risk maps of flooding .....	353
<b>M. Ortelecan, A. Ciotlăuş, J. Vereş, N. Pop</b> Considerations regarding the realization of a traverse control network necessary to delimitate some real estates .....	363
<b>A. Popa, A. Dreghici</b> Using digital level Trimble DiNi for building vertical shiftings determination .....	371
<b>D. Mihai, R. Mudura</b> Geographical Information System used in Land Reclamation .....	377
