

## CONTENTS

<b>Gh. Nistor</b> Bicentennial Technical and Engineering Higher Education in Romanian 1813-2013 Remember: Gheorghe Asachi	7
<b>C-tin O. Andrei, M. Cardei</b> On the performance of Real-Time Network-based GNSS positioning	13
<b>Gh. Badea, A. C. Badea</b> Considerations Regarding the Implementation of the Technical Specifications in the Urban Information System	23
<b>I. Bene</b> Real Estate Valuation in Romania under European Directive on the Energy Performance of Buildings 2010/31/UE	33
<b>V. Chiriac, L. Nistor Lopatenco</b> EGNOS extension to eastern Europe. Trail flights in Republic of Moldova	43
<b>C-tin Chirila, A. C-tin Popia, A.V. Smadici</b> Testing coordinates of network control points for monitoring horizontal displacements of hydrotechnical constructions	51
<b>T. S. Clinci, P. I. Dragomir</b> Unconventional techniques of positioning	61
<b>L. M. Crenganis</b> The use of GIS in water cadaster	69
<b>C. Didulescu, A. Savu, C. Coșarcă, A. Negrilă</b> Modelling a hydrographic basin using geospatial data	75
<b>I. Dimen, T. Borsan, N. Ludusan, I. Vintan</b> GIS Analysis of Morphometric Factors in the Zlatna Depression, Alba County	85
<b>P.I. Dragomir, C. Mototolea</b> Measurement techniques in aeronautics industry	95
<b>D. P. Dumitru, C-tin Cosarca, A. Calin, A. Savu, A. Negrila</b> Modelling the quasigeoid for the Prut-Barlad hydrographical basin area	105
<b>Cr. Hutanu, D. Padure, D. C-tin Nica</b> The realization of statistical representations based upon updates cadastral data of a vineyard unit limitrophe to the City of Iassy	113
<b>M. Popia (Ilica)</b> Terrestrial laser scanning technology used in the field of shipbuilding	121

<b>A. E. Keller, C. Faur, S. Nas, V. Dohotar</b> Usage of GIS in determining optimal locations for parking spaces. Application on a cadastral sector from the City of Baia Mare, Maramureş County	129
<b>V. Moca, A. Popia, Gh. Salceanu, O. Radu, M. Cardei</b> Assessment of the cadastral database integration accuracy from the local coordinate system into the Stereographic – 1970 projection, in Iasi city	137
<b>A. Negrilă, D. Onose</b> Dam monitoring using terrestrial laser scanning	149
<b>D. C-tin Nica, Cr. Hutanu, D. Padure</b> Aspects on the achievement of the database of a city land registry information system	159
<b>Gh. Nistor</b> The establishing of the coefficients of correlation between the compensated variables or between the functions of the compensated variables by rigorous methods	167
<b>S. Nistor, A. S. Buda</b> Large Industrial Scanning	175
<b>O. Odalovic, S. Grekulovic, H. Al-gharabli, D. Blagojevic, V. V. S. Naod</b> Comparisons of global geopotential models with terrestrial gravity data in Libya	181
<b>E. Oniga, C-tin Chirila</b> Hausdorff Distance for the Differences Calculation Between 3D Surfaces	193
<b>M. Ortelecan, I. Pop, N. Pop, R. Joldis, T. Salagean</b> Issues regarding the geodetic support network restoration from Cojocna experimental didactic station perimeter, to USAMV Cluj-Napoca	203
<b>D. Padure, Cr. Hutanu, D. C-tin Nica</b> The utility of the database management of real estate cadastral informational system through GIS softwares	211
<b>V. Pagounis, V. D. Andritsanos, A. Papathanasiou, L. Tournas, M. Tsakiri</b> The use of terrestrial laser scanning in the development of models for a heritage building information system	219
<b>M. Palamariu, M. Puscas</b> The Automation of Activities in the Field of Application of Technical-Engineering Projects Using 3D Modeling	229
<b>C. Păunescu, C. Ciuculescu, V. Păunescu</b> Achievement of salvation – evacuation mapping for Henry Coanda airport	237
<b>M. C. Petrila, A. E. Mălinici</b> Usage of free data in natural resource management and territorial planning	243
<b>M. Plopeanu, D. P. Dumitru, D. Badea, A. Calin, O. Badescu</b> Considerations on the use of CCD and CMOS sensors in geodesy	253

<b>A. Sărăcin, C-tin Cosarcă, A. Savu, A. Negrilă</b> Analysis of displacements and deformations for a sludge fermentation tank (RFN4) of the wastewater treatment plant Glina	<b>261</b>
<b>A. Savu, D. Onose, C-tin Cosarca, C. Didulescu, A. Negrilă</b> Terrestrial Laser Scanning of the Hydrotechnical objectives in hydrographic space Dobrogea – Litoral	<b>271</b>
<b>V. Sorta</b> Romanian Active Geodetic Reference Network. The evolution of the Romanian Position Determination System – ROMPOS	<b>279</b>
<b>D. Badea, M. Plopeanu, P. D. Dumitru, A. Calin</b> Filtering the DSM	<b>285</b>
<b>C-tin Coșarcă, P. D. Dumitru, A. Savu, A. Negrilă, A. Călin, A. Sărăcin, C. Didulescu</b> Geodesic technical assistance for hazard and flood risk maps in hydrographic space Prut – Barlad	<b>296</b>
<b>D. Georgescu, Gh. Nistor</b> Integrated geographic informational system, in monitoring the roads	<b>311</b>
<b>H. Hogas, C. Pirvan, A. Lazar</b> Background on making a geographic information system database for the hydro-ameliorative layout "The Organization for the Use of Water for Irrigation"	<b>322</b>
<b>C. Păun, E. Oniga</b> ALS data for vegetation analysis	<b>329</b>
<b>D. Vasilca</b> An analysis of Mercator's map: "Transsylvania"	<b>338</b>
